ASUS ZenBook S13

Power and beauty, evolved

The worlds' slimmest bezels and 13.9" largest screen-to-body ratio

The four-sided frameless NanoEdge display on ZenBook S13 is a true masterpiece. It features the world's slimmest bezels - measuring a barely-there 2.5mm at the sides - and the world's largest screen-to-body ratio

FHD display

screen-to body ratio

The world's most compact 13.9" laptop

The advantage of slimmer bezels isn't just visual: they also help reduce the overall size of ZenBook S13. So despite its larger 13.9-inch NanoEdge display, ZenBook \$13 actually has a 12.5%-smaller footprint than previous 13.9-inch models! More beauty and power in less space - what's not to like about that?

12.5%

smaller than previous 13.9" models

The world's slimmest laptop with discrete graphics

With ZenBook S13, small size is no obstacle to performance: it's built to get things done as quickly and efficiently as possible, with no fuss or drama. The very latest Intel Core processors are now even faster for smooth and responsive performance whatever you're doing, and discrete NVIDIA graphics deliver all the visual horsepower you need for demanding creative tasks. With no compromises on connections, ZenBook S13 offers the convenience of standard USB 3.1 Gen 2 Type-A port, two USB-C™ that support fast charging, data transfers and external displays and also a microSD card reader.

Power and beauty, evolved

All this power is contained in an incredibly compact and light aluminum unibody weighing 1.1kg and CNC-milled for added strength, enabling ZenBook S13 to meet the military-grade MIL-STD-810G durability standard. Coming in slim, sleek and in the new Utopia Blue color, ZenBook S13 is the perfect balance of performance and beautiful aesthetics for those who want a powerful yet stylish notebook.

PANTONE® Validated display

The 4K UHD NanoEdge display on ZenBook Flip 13/15 is truly awe-inspiring, with pin-sharp detail and bright, vivid colors for more lifelike images. It's gorgeous for everyday use, and is PANTONE® Validated with factory-calibrated color accuracy, making it a dream for graphics professionals.

Gaming-grade graphics

The GeForce GTX 1050 Max-Q discrete graphics chip in ZenBook Flip 15/13 uses the groundbreaking NVIDIA Pascal™ architecture to give you desktoplevel performance in a laptop. With its dedicated video memory, ZenBook Flip 15 delivers the silky-smooth speed you need for whatever your creative graphics task - such as video rendering, photo editing or 3D modeling.

Ultratough: military-grade durability

ZenBook Flip 15 meets the ultra-demanding MIL-STD 810G military standard for reliability and durability, undergoing a punishing test regime that includes extended tests for operation in harsh environments including extreme altitudes, temperatures and humidity. It has also passed ASUS internal laptop tests that far exceed the standards set by the industry.

ASUS **ZenBook** 13/14/15

The world's smallest 13", 14" and 15" laptops*

For Creators | Young Professionals

The world's smallest 13, 14 and 15-inch laptop

Everything in the elegant new ZenBook series is designed to empower your creativity. Enjoy the breathtaking new frameless NanoEdge display, appreciate the tremendous power of the up to 8th Gen Intel® Core™ i7 processor and high performance NVIDIA discrete graphics, marvel at the unique ErgoLift hinge and exclusive NumberPad touchpad, and admire the timeless beauty of the ultracompact design. ZenBook is waiting: are you ready to unleash your creative vision?

*As of August 17, 2018 based on internal ASUS market analysis comparing ZenBook 13/14/15 laptop size to competing products in their class (laptops with a screen measuring 13.3 inches; 14 inches and 15.6 inches) from vendors including Acer, Apple, HP, Huawei, Lenovo, Microsoft and Samsung

Powered by Intel® Core™ i7 processor. https://www.asus.com/ph/Laptops/ZenBook-Series-Home/

Unbounded performance

The GeForce GTX 1050 Max-Q discrete graphics chip in ZenBook 15 uses the groundbreaking NVIDIA Pascal™ architecture to give you desktop-level performance in a laptop. With its dedicated video memory, whatever your creative graphics task - such as video rendering, photo editing or 3D modeling — ZenBook 15 delivers the silky-smooth speed you need.

Unbounded beauty with frameless NanoEdge display

Designed to give you the most screen area in the least physical space, the new frameless four-sided NanoEdge design of the new ZenBook series is simply breathtaking: it makes any visuals more immersive, with less distraction for your

Exclusive NumberPad

Tap the NumberPad icon at the top right corner of the touchpad, and an illuminated numeric keypad appears. With NumberPad you can guickly perform data entry or calculations, and in touchpad mode the glass covering provides super-smooth and precise fingertip control with multitouch gesture support.

The laptop that recognizes you!

The advanced infrared (IR) camera on ZenBook 13.14 and 15 has see-in-thedark capabilities that ensure fast, reliable hands-free face login with Windows Hello – even in dim environments. From wake-up to login takes only around a few seconds and unlike some rivals with awkwardly placed cameras, on ZenBook 13,14 and 15 it's sensibly located on the slim top bezel of the NanoEdge display - yet another thoughtful ZenBook design detail.

ASUS VivoBook S13/14/15

Colors that match your vibe

For students and young professionals

Dare to be different

When it comes to looks, VivoBook \$13/14/15 doesn't do boring traditional laptop colors. Instead, it has striking hues that let you express yourself, adopting a colorblocking approach to pair the bright and bold with more subtle colors for a laptop that visually pops. VivoBook S14/15 has five exciting hues that tell the world who you are. Whatever your style and outlook, S13/14/15 has a color combination to match it.

degree

Give yourself a lift

Open up VivoBook S13/14/15 for a world of productivity and possibilities. Its precision-engineered ErgoLift hinge has a silky-smooth dual action that holds the display securely at any angle, and slightly tilts the keyboard up by 3.5° to give you a perfect typing position every time. The ErgoLift hinge also improves cooling for a stable computing experience.

See more, do more

The new NanoEdge display on VivoBook S13/14/15 continues to push the boundaries of what's possible - the new three-sided NanoEdge display now has an even narrower bezel along the top and sides of the display. This results in an 86% screen-to-body ratio that provides unrivaled immersion in a much more compact package.

It goes where you go

The new frameless four-sided NanoEdge display keeps dimensions down to a minimum, giving VivoBook 14/15 a footprint that's appreciably smaller than its predecessor. It takes up less space on your desk, leaving more room for you. Life moves fast, and you'll need a laptop that won't weigh you down. VivoBook 15 has compact, travel-friendly dimensions and is incredibly 1.6kg light - simply slip it in your bag for true go-anywhere computing.

Give yourself a lift

Open up VivoBook 14/15 for a world of productivity and possibilities. Its

precision-engineered ErgoLift hinge has a silky-smooth dual action that holds the display securely at any angle, and adds a 2° keyboard tilt to give you a perfect typing position every time.

Express yourself through color

VivoBook 14/ 15 is available in different finishes to suit your style. Transparent Silver provides a sleek and sophisticated look, or go for Slate Grey for a more understated approach. Set the trend with the uniquely iridescent Peacock Blue: a unique option that changes color when you look at it from different angles. If you really want to stand out, there's Coral Crush with its bright finish.

Productivity and entertainment, everyday

A perfect combination of beauty and performance, the stylish ASUS X407/X507 is powered by a 8th Generation Intel® Core™ i7 processor with 16GB RAM, and GeForce® MX130 graphics. ASUS X407/X507 also features a dual-storage design that combines a superfast SSD with a large capacity HDD. It's the ideal laptop for daily computing and entertainment.

Powered by 8th generation Intel Core i5 processor, Intel's most powerful processor for what's coming. Intel, the Intel Logo, Intel Inside, Intel Core, and Core Inside are trademarks of Intel Corporation or its subsidiaries in the U.S. and/or other countries

Stylish and compact design to keep you on the go

ASUS X407/X507 is extremely portable and weighs just 1.68 kg. It's an everyday laptop that keeps you productive and entertained — anywhere. And the stylish ASUS X407/X507 is available in an eye-catching brushed finish in Icicle Gold and Star Grey.

Immersive visuals

With the 8.1mm bezel on the NanoEdge display, ASUS X407/X507 has a 75.4% screen-to-body ratio — so you get more screen for more immersive viewing. The Full HD display also features 178° wide-view technology to ensure that colors and contrast remain vivid and bold, even when viewed at sharp angles. It's the perfect solution for sharing content with friends and colleagues.

THREE NVME 550s

ROG MOTHERSHIP (GZ700)

The World's Best Performance Gaming Laptop

Redefine How You Play

Laptops limit cooling and lock you into a fixed position that's needlessly rigid for desktop replacements, so we've reimagined the form factor to raise your game. ROG Mothership is a portable Windows 10 Pro powerhouse with an innovative standing design that enhances cooling for its factory overclocked GeForce RTX™ 2080 GPU and 9th Gen Intel® Core™ i9 CPU. Take full control with its detachable keyboard and get ready to experience the smooth visuals without blur or tearing on its NVIDIA G-SYNC™ technology display that refreshes at 240Hz/144Hz and 3ms response time. SSD RAID storage and 2.5G Ethernet bring ultra-fast performance to every part of this revolutionary gaming machine.

Powered by 9th generation Intel Core i9 processor. Intel's most powerful processor for what's coming.

RETHINK THE FORM FACTOR

Each aluminum unibody is milled to perfection with a precise CNC machining process. The chassis stands tall to improve airflow and cooling, enabling a slimmer and more portable design. It leans back on a stepless hinge to suit any setting and separates from the keyboard for additional versatility. Detach and reposition the keyboard for your ideal gaming stance, or replace it with your favorite desktop peripherals. ROG Mothership can deploy on the road or power a full battlestation at home.

ULTRAFAST 144HZ/3MS

NVIDIA® G-SYNCTM DISPLAY

TAKE THE LATEST

the CPU to reach an insane 8700MB/s.

NVIDIA^N GEEDRCE

HARDWARE TO THE NEXT LEVEL

ROG Mothership raises the bar with a factory overclocked GPU and CPU that are unlocked for further tuning. The GeForce® RTX™ 2080 sets a new standard for laptop gaming and VR

performance, while the 9th Gen Intel® Core™ i9 CPU unleashes 8 cores and 16 threads on heavy workloads. They're paired with up to three NVMe SSDs in RAID 0, with two drives connected to

RTX™ 2080 i9-9980 HK RAID 0

Immerse yourself in gorgeous graphics on the 17.3" IPS-level display. The Full HD panel's 240Hz/144Hz refresh rate and 3ms response time are tailored for fast-paced games, while G-SYNC™ technology delivers smoother gameplay with lower input lag and no tearing. ROG-exclusive software lets you switch between modes that offer the best gaming experience with G-SYNC or longer battery life with Optimus, so you can choose the right one to suit the situation.

ROG Mothership GZ700GX

- Intel® Core™ i9-9980HK Processor 2.4GHz (16M Cache, up to 5.0GHz)

ROG ZEPHYRUS S [GX70]]

intel CORE 17 9th Gen

The World's Slimmest 17" Gaming Laptop with RTX 2080 Max-Q

Go Big. Stay Slim

ROG Zephyrus S set the standard for ultra-slim Windows 10 gaming laptops. Now it has bigger aspirations with a super-narrow-bezel 17-inch display in a chassis just 18.7mm thin, Zephyrus S GX701 is loaded with up to a GeForce RTX™ 2080 with Max-Q Design GPU and 9th Gen Intel® Core™ i7 CPU. Immerse in its 144Hz/3ms panel with Pantone® validated colors, and use the ROG-exclusive GPU switch to change between G-SYNC™ for gaming and Optimus for battery life.

Powered by 9th generation Intel Core i7 processor. Intel's most powerful processor for what's coming.

399 X 272 X 18.7mm

ROG ZEPHYRUS 5 (GX701) OTHER TRADITIONAL 17" LAPTOP 424 X 332 X 29.9MM

SPECTACULAR VISUALS MIX SPEED AND PRECISION

Slender bezels draw you deeper into the action on the 144Hz IPS-level display. The high refresh rate makes gameplay smoother and lowers input lag, while the 3ms grey-to-grey response time produces sharper visuals with no blurring. Color accuracy and uniformity are critical for content creators, so factory calibration and ProArt™ TruColor Technology deliver a Pantone® Validated palette.

SMALLER THAN CONVENTIONAL 17"

THE MOST COMPACT 17-INCH GAMING LAPTOP EVER

Immersing yourself in a larger display usually means lugging a larger laptop, but slim bezels and smart design make ROG Zephyrus S the smallest in its class. Easily carry it around town or across the world thanks to compact dimensions that put a 17-inch display in a 15-inch form factor. The sleek magnesiumalloy body fits inside standard bags(*) and is strong enough to stand up to everyday life.

SLIMMEST

OUICKLY SWITCH GEARS FOR WORK AND PLAY

Don't be fooled by its lithe body; ROG Zephyrus S has ample power for AAA games, VR experiences, and serious creative work. The six-core 9th Gen Intel® CoreTM i7 CPU and GeForce® RTX 2080 with Max-Q design GPU deliver desktop-like performance, while an NVMe SSD up to 1TB offers speedy storage for your growing game library and professional portfolio.

ROG ZEPHYRUS 5 [GX53]]

The World's Slimmest 15.6" Gaming Laptop with RTX 2080 Max-Q

The New Standard

for Ultraportable Gaming

Clever design and expert craftsmanship are required to put

high-end chips into the slimmest gaming laptop ever. At

just 15.35~16.15mm thin with a GeForce RTX™ 2070 with

Max-Q design GPU and the latest Intel® Core™ i7 processor, ROG Zephyrus S is portable but powerful enough for life on

the go. In one fluid motion of hidden scissor-door hinges, it transforms from svelte sidekick to gaming powerhouse.

The unique ROG Active Aerodynamic System (AAS) expands to help Zephyrus S sustain high GPU clocks with demanding games. Lifting the lid opens a 5-mm intake that increases airflow by up 22% compared to traditional designs. Anti-dust tunnels keep the four heatsinks clean to preserve cooling performance and system stability as the hours add up.

GEFORCE 6 CORES RTX™ 2080 TB WITH MAX-Q DESIGN NVMe SSD

Shrinking Bezels Without Sacrificing Speed

Super-narrow bezels draw you deeper into the action on the 240Hz IPS-level display. The high refresh rate makes gameplay smoother and lowers input lag, while the 3ms gray-to-gray response time produces sharper visuals with no blurring. With the full sRGB color gamut and wide viewing angles, ROG Zephyrus S blends speed and beauty without compromise.

Zephyrus 5 GX531GXR

- Intel® Core™ i7-9750H Processor 2.6GHz (12M Cache, up to 4.5GHz)
- · Windows 10
- · NVIDIA® GeForce RTX™ 2070 with 8GB GDDR6

- · 230W Power Adaptor
- 36.0(W) x 26.8(D) x 1.53 ~ 1.61(H) cm

Slim Yet mighty

After redefining ultra-slim gaming laptops with the original Zephyrus, ROG brings hardcore gaming to an even thinner design framed by super-narrow bezels. ROG Zephyrus S uses innovative engineering to cool its GeForce RTX™ 2080 with Max-Q design and 9th Gen Intel® Core™ i7 processor, so you can immerse yourself in its nocompromise 144Hz/3ms display.

Powered by 9th generation Intel Core i7 processor. Intel's most powerful processor for what's coming.

Smaller. Faster. Lighter.

Armed with the power and versatility to slice through both AAA games and professional work, the ROG Zephyrus S GX502 redefines the bounds of Windows 10 ultra-slim gaming. Its innovative cooling design unleashes the true potential of the latest **9th Gen Intel®** Core™ i7 CPU and NVIDIA® GeForce RTX™ 2070 GPU, allowing them to take full advantage of the ultra-responsive 240Hz/3ms PANTONEI® Validated display. Its adaptability shines with G-SYNC™ and Optimus modes, giving you the freedom to shift between exceptionally smooth gameplay and better battery life on the go.

Powered by 9th generation Intel Core i7 processor. Intel's most powerful processor for what's coming.

Intel the letal and letal and Intel Date and Date letal are trademarke of Intel Corporation or he subsidiaries in the LLS, and for other countries

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for the chassis and components. In the Zephyrus S GX502, our innovative Active Aerodynamic System (AAS) opens additional vents to increase airflow by 22%, while the self-cleaning thermal module ejects dust to improve longevity. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

LIGHTWEIGHT FORM. HEAVYWEIGHT PERFORMANCE.

Fusing the latest 9th Gen Intel® Core™ i7 CPU with revolutionary GeForce RTX™ 2070 graphics, the ROG Zephyrus S GX502 puts powerhouse performance in a compact package. ROG Boost clocks the GPU up to 1540MHz at 115W in Turbo mode to enable stunning realism. Up to 32GB of DDR4-2666 RAM and 1TB of RAID 0 SSD storage lets you cut through heavy multitasking for every game and app that comes your way.

ULTRAFAST 144HZ/3MS NVIDIA® G-SYNCTM DISPLAY

Live a double life with our unique GPU switch. This exclusive ROG technology gives you the freedom to improve your gaming experience with G-SYNC™, which reduces stuttering and eliminates tearing, or get better battery life with Optimus, which intelligently turns off the GPU to save power. The Zephyrus S GX502 is capable of reaching up to 8 hours of battery life*, so you can unplug and take work and entertainment with you anywhere.

*Performance may vary based on system configuration. Battery life tested, with NVIDIA® GeForce® RTX 2070 GPU Intel® Core® 17-9750H CPU, 240Hz, display, and 16GB of DOR4 SDRAM.

Power Meets Portability

Within a lightweight and ultra-slim metal frame, the new ROG Zephyrus M fuses wellrounded performance with an exhilarating Windows 10 gaming experience. The latest 9th Gen Intel® Core™ i7 CPU and NVIDIA® GeForce RTX™ 2060 GPU blaze through serious work and play, while up to 1TB of RAID 0 SSD storage provides ultra-fast load times across a vast library of games and apps. Immerse yourself in the 144Hz/3ms IPS-level display with supernarrow bezels, and go deeper with Hi-Res ESS Sabre audio.

Powered by 9th generation Intel Core i7 processor. Intel's most powerful processor for what's coming.

NVIDIA" GEFORCE _{бтх™} 1660Ті

SLEEK, STRONG, AND ULTRA-SLIM

The impressively lightweight form belies heavyweight power. At 18.9mm thin and 1.9kg, the Zephyrus M GU502 is 25% thinner and 45% lighter than typical 15" laptops. But it refuses to compromise between work and play, delivering dynamic performance and refined styling that's truly the best of both worlds. Its sleek, reinforced metal chassis makes it resilient against everyday use and wear, while the subtle, soft-touch skin along the palm rest keeps it looking clean and professional for work anywhere.

OVERACHIEVE WITH SPEED

Speed, power, and portability achieve a perfect balance in the well-rounded ROG Zephyrus M. Its ultra-slim frame houses a powerful 9th gen Intel® Core i7-9750H CPU with NVIDIA GeForce GTX™ 1660Ti graphics that can reach a 1435MHz at 90W in Turbo mode. With up to 32GB of DDR4-2666 RAM and 1TB of speedy RAID 0 SSD storage, you can blaze through everyday work and multitasking faster, with lightning-fast load times even for heavy duty apps and large games. The ROG Zephyrus M slices through anything you throw at it.

TRUE COLOR AND SPEED ON DISPLAY

Outstanding colors and smooth gameplay unite in the vibrant 144Hz/3ms IPS-level display. The 15.6-inch panel is framed by slim 6.2-mm bezels, creating an 81% screen-to-body ratio that feels expansive. Combining full sRGB coverage with wide viewing angles makes the screen ideal for showcasing visual projects and media. The fast 144Hz refresh rate enables true high-FPS gameplay, while the 3ms grey-to-grey response time ensures crisper, clearer graphics even during intense, fast-paced matches.

ROG Zephyrus M GU502

- Intel[®] Core™ i7-9750H Processor 2.6GHz (12M Cache, up to 4.5GHz)

ROG ZEPHYRUS G [GR502]

Attain Ultra-slim Gaming

Attain Ultra-slim Gaming

The all-new ROG Zephyrus G deftly balances exceptional portability with potent performance to bring ultra-slim Windows 10 gaming laptops to a bigger audience. Its AMD® Ryzen™ 7 processor and GeForce® GTX 1660Ti graphics power through work and play, while up to 8.8 hours of battery life keeps you running on the road. Immerse yourself in up to a 120Hz display framed by super-narrow bezels that practically melt away, and turn up the volume with smart amp technology that gets louder with less distortion.

Powered by 9th generation Intel Core i7 processor. Intel's most powerful processor for what's coming.

WORK HARD, PLAY HARD,

ROG Zephyrus G starts with a quad-core AMD® Ryzen™ 7 3750H CPU that slices through serious work and everyday multitasking. It's paired with a GeForce® GTX 1660 Ti discrete GPU with ROG Boost up to 1435MHz at 60W in Turbo mode to provide ample horsepower for a wide range of popular games and VR experiences.

LONGER LIFE ON THE GO

ROG Zephyrus G strikes a perfect balance between power and portability. Its energy-efficient AMD® Ryzen™ APU provides enough power for serious gaming, while also supplying sufficient battery life for up to nearly 7 hours of 1080p video playback and Wi-Fi web browsing*. Spend less time plugged in to a wall socket and more time on the move, surfing, streaming, and playing.

*Performance may vary based on system configuration. Battery life tested with NVIDIA®

8.8 HRS

SUPER NARROW BEZELS FOR SUPERIOR IMMERSION

Super-narrow bezels shrink to just 6.2mm on three sides, giving the ROG Zephyrus G an 81% screen-to-body ratio. With a refresh rate up to 120Hz, the vIPS-level panel doubles the frames pumped out by normal displays and lets you experience true triple-digit FPS. Movement and animation are much smoother, and wide viewing angles keep the picture from washing out.

87% SCREEN-TO-BODY RATIO 120Hz

ROG STRIX G73]/G53] SCAR III

Fight till Daylight

Aim for esports excellence with the ROG Strix SCAR III, engineered to compete at the top tier of Windows 10 Pro gaming. Intelligent Cooling unleashes the raw power of the 9th Gen Intel® Core™ CPU and GeForce RTX™ graphics, while the world's fastest 240Hz/3ms laptop display lets you play at the speed of pro gaming. Jump into multiplayer matches anywhere with stronger RangeBoost Wi-Fi, show off your personality with the wraparound Aura Sync light bar, and gain privacy for personal data with the new ROG Keystone.

Powered by 9th generation Intel Core i9 processor. Intel's most powerful processor for what's coming.

Intal the Intel Loro Intel Inside Intal Core and Core Inside we trademarks of Intal Corporation by he subsidiance in the U.S. and/or other countries.

INTRODUCING THE KEYSTONE

Keystones offer a versatile new way to personalize your machine and protect your personal data. These physical, NFC-enabled keys fit neatly into the Strix SCAR III's chassis, adding a subtle accent along the trim. When docked, they instantly transform your machine with different effects and game-specific profiles, or unlock access to a secret Shadow Drive for covert private storage.

Efficiency and innovation unite in the sleek, gunmetal grey ROG Strix SCAR III. Its strategic design is inspired by our collaboration with BMW Designworks Group, and carves out a cooling advantage with its 3D Flow Zone. The subtle, carbon-patterned interior is accented by Aura Sync lighting that extends across the new wraparound light bar, keyboard, and ROG logo. Whether you're gearing up for competition or hopping into quickplay, this metal-capped machine is fine-tuned and ready for action

SEE THE GAME AT PROFESSIONAL SPEED

Play at the speed of professional esports with the world's fastest gaming laptop display. The 240Hz/3ms panel enables true high-FPS gameplay capable of keeping up with competitive gaming at the highest level. Stay

in the flow of fast-paced action with impeccably smooth, crisp visuals that heighten your immersion. Get an edge in combat where rapid response and environmental awareness are crucial to victory.

ROG STRIX G73]/G53] HERO III

RISE WITH THE DAWN

Rise with the Dawn

The sleek and streamlined Strix Hero III is engineered for esports and peak Windows 10 gaming performance. Intelligent Cooling unleashes the raw power of the 9th Gen Intel® Core™ CPU and GeForce RTX™ graphics, and makes full use of the ultrafast gaming display. Jump into multiplayer matches anywhere with stronger RangeBoost Wi-Fi, show off your personality with the wraparound Aura Sync light bar, and gain privacy for personal data with the new ROG Keystone.

Powered by 9th generation Intel Core i7 processor. Intel's most powerful processor for what's coming.

NVIDIA[®] GEFORCE

17-9750H

RTX-2070

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for each situation. The Strix Hero III augments its well-ventilated exterior with a self-cleaning thermal module that ejects dust to improve longevity. Dual n-Blade fans spin 83 blades to increase airflow, and ultrathin fins expand the surface area for heat dissipation. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

3D FLOW ZONE 12v

SUSTAIN THE STRONGEST WI-FI SIGNAL

ROG RangeBoost technology ensures the most stable Wi-Fi signal possible. The unique RangeBoost algorithm evaluates the signal strength of four internal antennas and picks the best pair to use for your location, minimizing dead spots and increasing wireless range by up to 30%. Paired with the latest Intel® 802.11ac (2x2) Gigabit Wi-Fi, which offers peak wireless bandwidth of up to 1.7Gbps, you can connect and game at speed almost anywhere.

* Specifications vary according to model.

ASUS TUF GAMING FX705/FX505

TUF CAMING THE WORLD'S FIRST GAMING LAPTOP 35W AMD RYZEN **GAMING PROCESSOR**

Unbounded Design, Unrivaled Toughness

ASUS TUF Gaming FX505 will change the way you look at gaming laptops. It exceeds expectations, boasting impressive hardware and a compact, aggressively-designed chassis that's exceptionally tough. FX505 has a gaming desktop-inspired keyboard with RGB-backlit keys, a highlighted WASD key group, and Overstroke technology for fast and precise control. With a cutting-edge IPS-level NanoEdge display, and a MIL-STD-810G test certified durability, FX505 delivers an immersive gaming experience without breaking the bank!

Powered by 9th generation Intel Core i7 processor. Intel's most powerful processor for what's coming.

Ultra-Responsive Narrow-Bezel Display

Infused with the spirit of The Ultimate Force (TUF), FX505 passes a series of rigorous MIL-STD-810G tests, successfully surviving varying conditions including solar radiation exposure, high altitude, and temperature extremes. It's certified to endure day-to-day use, from accidental knocks to sudden drops on a desk. Durable and stable, FX505 has been pushed to the limit to ensure only the very best for gamers.

Unstoppable Gaming Firepower

Despite its compact size, FX705 / FX505 packs the punch of a full-fledged gaming desktop. It's powered the latest AMD Ryzen 7 3750H with Zen core architectur. With six cores and up to 23% more powerful than the previous generation, this latest processor allows for faster, more efficient multitasking, including simultaneous gaming, recording, and live-streaming. FX505 can also be specified with up to NVIDIA® GeForce® GTX 1660Ti graphics for vivid visuals and super smooth gameplay.

ASUS TUF GAMING FX505/FX705

- AMD Ryzen™ 7-3750H Processor 2.3GHz (6M cache, up to 4.0GHz)

ASUS Zen AiO 27

Unbounded vision, unlimited enjoyment

For Professional Users | Designers | Content creators

Zen AiO all-in-one PC -The power to create

Users can expect desktop-levels of performance courtesy of an 8th Generation Intel Core i7 processor; and with up to 32GB memory. Gaming-grade NVIDIA GeForce GTX 1050 graphics makes light work of photo and video editing, and even 3D graphics rendering. A dual-storage configuration with up to a 2TB HDD and a 1TB PCIe® SSD ensure there's ample storage for large photo and movie files, and editing programs run smoothly.

Powered by Intel® Core™ i7 processor. Intel's most powerful processor for what's coming ntel Inside, Intel Core, and Core Inside are trademarks of Intel Corporation or its subsidiaries in the U.S. and/or other countries, login with

Visuals that pop

Zen AiO 27 is the ideal tool for graphics professionals thanks to its 27-inch 4K UHD NanoEdge display with a 100% sRGB color gamut. It delivers pin-sharp detail and bright,

vivid colors for more lifelike images. In addition, the display is PANTONE® Validatedand has a Delta-E value of less than 2.0, providing outstanding color accuracy for exceptional colors.

A perfect viewing position

Zen AiO 27 features built-in 7.5W Qi wireless charging in its base, allowing users to fast-charge a Qi-compatible mobile device by simply placing it on the base. In another new design feature, ASUS engineers have incorporated the internal components into an ergonomically-designed stand and base. The stand features tilt, swivel, and height adjustment to ensure the perfect viewing position, every time; while the base provides improved cooling for its high-performance components and can be easily opened to provide access to the storage and memory modules for hassle-free upgrades.

Harman Kardon-certified audio

Zen AiO 27 delivers fully immersive sound certified by audio specialists Harman Kardon. A high-quality 300cc, 30W quad-speaker system with an advanced bass-reflex design typically found in high-end speaker systems - delivers smooth, power bass and clear, full-range sound that has to be heard to be believed.

ASUS Vivo AiO V272

Unbounded vision, unlimited enjoyment.

27" For Working People | Family | Young Executives

Vivo AiO all-in-one PC with NanoEdge display is Designed for **Family Living**

Vivo AiO V272 features an up to 8th Generation Intel® Core™ i7 processor and NVIDIA GeForce MX150 graphics for uncompromising performance. The 27-inch multi-touch display has a wide 100% sRGB color gamut and 178° wide-view technology for truly great visuals, and combines with the ASUS SonicMaster audio system with its bassreflex speakers to offer a superbly immersive entertainment experience.

Powered by Intel® Core™ i7 processor. Intel's most powerful processor for what's coming

Vibrant and vivid!

The NanoEdge display on Vivo AiO V272 features wide 178° viewing angles, and 100% sRGB color gamut for vivid and realistic-looking colors. It also includes exclusive ASUS Splendid technology to ensure true-to-life colors whether it's an image of a sunset, a clear blue sky, or subtle skin tones. Its Full HD resolution is further enhanced with exclusive ASUS Tru2Life Video technology, which optimizes sharpness and contrast for every pixel in every video frame for clearer, more realistic video imagery.

Power through everyday tasks

Powered by the latest energy-efficient 8th Generation Intel® Core™ processors and NVIDIA® GeForce® MX150 graphics, Vivo AiO V272 delivers effortless performance for smooth multitasking, so whatever task is at hand, you'll power through it with ease! Vivo AiO V272 is the perfect solution for your everyday computing needs, whether you want to surf the web, watch videos, or just catch up with emails.

Advanced bass-reflex speakers

For amazingly immersive multimedia experiences, Vivo AiO V272 has a hugely powerful audio system. The two integrated high-quality stereo speakers are capable of delivering 6W of pure and rich sound, and benefit from an advanced bass-reflex design - a design typically only available in hi-fi speaker systems - to deliver smooth, powerful bass and clear, full-range sound that has to be heard to be believed.

ASUS Product Guide / June - July 2019 53

In Search of Incredible

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We're always in search of incredible ideas and experiences, and we aspire to deliver the incredible in everything we do. Our extensive product portfolio includes motherboards, graphics cards, optical drives, displays, desktop and all-in-one PCs, laptops, netbooks, servers, multimedia devices, wireless solutions, networking devices, tablets and smartphones, and even robotics. Our results speak for themselves. We're the No.1 consumer laptop brand in Asia-Pacific, and a top-three vendor of consumer laptops globally. We're also proud to be world's best-selling, most award-winning motherboard brand. Driven by the core values of lean thinking, innovation, aesthetics and achieving results, ASUS won 4,660 awards in 2019 - and the total revenue for 2017 was approximately US\$13 billion. The combined talent of 16,000 international employees, including a world-class R&D team of 5,000 engineers, has elevated ASUS to become one of Fortune magazine's World's Most Admired Companies in 2018.

ROG Facebook Shop: http://bit.ly/ROGFacebookShop

Worldwide Achievement

No.1 consumer notebook brand in Asia-Pacific * (excluding China and Japan)

- Top 2 consumer notebook brand in China
- Top 2 consumer notebook brand in Central and Eastern Europe
- Top 3 consumer notebook brand in the world

- 2017 IDC report

No. 1 Motherboard Brand in the World

ASUS makes the world's best-selling, most award-winning motherboards, shipping over 500 million units since 1989. They also form the reliable heart of every ASUS laptop.

One of the World's Most Admired Companies

ASUS has been named as one of the top 10 World's Most Admired Companies by Fortune Magazine in 2018, for its contribution to the computer industry.

4.660 Awards in 2019

In 2017 alone, ASUS earned 4,660 awards from some of the most prestigious international organizations and media groups around

ASUS Green Technology

ASUS was the first global IT company in the world to achieve EU Ecolabel certification for laptops, and achieved 31,068 similar labels globally in 2017.

Most Valuable International Brand from Taiwan

ASUS is ranked as the most valuable international brand from Taiwan for the fifth consecutive year in the 2017 Taiwan Global Brands Survey, conducted by world-leading brand consultancy Interbrand.

Top 100 Global Technology Leader

ASUS has been named as a 2018 Top 100 Global Technology Leader by Thomson Reuters, reaffirming the company's position as a top technology brand.

Ensuring The Best Quality Laptops

Durability is a hallmark of ASUS design. We strive to create devices that exceed expectations in any environment. That's why ASUS laptops undergo a rigorous torture-test regime, including military-grade testing to the demanding MIL-STD-810G standard*. Using up to 15 separate tests in environmental conditions, we hope you'll never encounter. So whether you're an urban explorer or an Arctic trailblazer, you can rest assured your laptop is ready for the worst that life on the road can throw at it.

Altitude Test

This tests the ability to survive extremes of altitude encountered in shipping by air or air travel.

Humidity Test

This tests the ability to operate in hot, humid environments for ten 24-hour

Accelerated Life Test

EMI Test

These simulate the effects of long-term operation, so engineers can identify any possible design or component vulnerabilities

Temperature Test

Extremely high or low temperatures tests ensure laptops' functions consistently for users everywhere.

Noise and Audio Test

Laptops undergo fan, hard drive, and power-supply noise tests to ensure the quietest performance possible

This ensures that ASUS laptops perform well in internal or external electromagnetic fields

Drop Test

Drop tests check the resistance of the chassis and internal components to damage from unexpected

Shock Test

Shock tests ensure a laptop can withstand unexpected impacts such as accidental bumps, or jarring movements during shipping.

Vibration Test

Extensive vibration testing ensures that the chassis and internal components can withstand even the most extreme travel conditions.

Twist Test

Enhanced Hinge Test

Vigorous testing with over 20,000 open/close cycles helps ensure exceptional hinge strength.

Panel Resistance Test

Panel resistance tests ensure that the display can endure unexpected bumps or

Keyboard Test

To ensure ultimate keyboard durability, specially designed ASUS robots test individual keys with millions of keystrokes.

Port Test

Port tests ensure that contacts and plugs are durable even in environments where devices are frequently connected and disconnected

Touch Panel Precision Test

Checks the responsiveness and accuracy of the touchscreen for a natural touch and writing experience with ASUS Pen.

*Selected ZenBook and ASUSPRO models will be tested according to the demanding MIL-STD 8106 military-grade standard to ensure maximum reliability and durability and the number of tests passed by each laptop model is shown in the individual model's specifications sheet.

Digital Joy for All

ASUS creates exceptional technologies for today's demanding world, and innovates for tomorrow's exciting future. Whether its entertainment at home, boosted productivity in the office, or uninterrupted connectivity on the go, enjoy unrivaled digital experiences with products that suit every need.

ASUS VivoBook Colors that match your vibe

The bold and youthful ASUS VivoBook series is designed to represent who you are. With top-notch performance, the

ASUS Zen AiO Visualize creative power

The ASUS Zen AiO series brings you a choice of elegant all-in-one PCs designed to go beyond the ordinary, combining world-class design with technological innovation.

ASUS Vivo AiO

Unbounded vision, unlimited enjoyment

The ASUS Vivo AiO series has everything you need in a sleek and self-contained design, offering a smooth computing experience that everyone can enjoy.

Incredible Innovations

Established in 1989, ASUS is passionate about technology and driven by the desire to remain a leader in the new digital era. Simply, innovation is part of the ASUS DNA.

Explore with Exclusive Technology

Incredible Visuals

ASUS Splendid

ASUS Splendid technology enhances the display by reproducing more-brilliant colors for visually stunning experience, whatever you're looking at! And you don't even have to lift a finger, as it works by automatically fine-tuning the display settings - including color temperature, contrast and brightness - to optimize any kind of image. The result is richer, deeper colors and stunning visuals whether you're watching movies, playing games or browsing through your photos.

Normal Mode

Default Normal Mode gives you see through ASUS's panel appears to be as close as how you see the same thing with your own real eyes.

Eye Care Mode

ASUS Eye Care mode could reduce the emissions of blue light by up to 30% so that your eyes are always protected when Eye Care mode is used.

Vivid Mode

In Vivid mode, we make carefullycalculated adjustments to the color saturation of the images to make them look more vivid and vibrant.

Manual Mode

In Manual mode, you can easily adjust the color temperature to your taste, within a range of -50 to +50, using a simple slider control.

ASUS Tru2Life Video

ASUS Tru2Life Video is an exclusive video enhancement technology that's similar to that found in high-end TVs. It uses intelligent software algorithms to optimize the sharpness and contrast of every video frame, so that videos look clearer, more detailed and more realistic. Every time your computer sends a frame of video to the screen, ASUS Tru2Life Video analyses every single pixel in the frame and optimizes its brightness and sharpness individually.

Incredible Sounds

ASUS SonicMaster

ASUS SonicMaster is a tailored mix of superior hardware and cleverly-designed software that gives improved audio quality, with louder, clearer, and more accurate sounds whatever you're listening to - movies, music, games or spoken words. It produces sound like you've never heard on a laptop, with a wider frequency range for clearer vocals and rich bass. It's as though you're at a live concert when listens to your favorite music, and blockbuster movies become totally immersive!

ASUS Audio Wizard

The ASUS Golden Ear team is a group of professional sound experts responsible for the entire audio subsystem of each device. Working with world-renowned audio technology companies such as Harmon Kardon, the Golden Ear team customizes and fine-tunes the audio hardware and software on every device to ensure that your sound experience is thrilling, immersive and unforgettable.

Music Mode

Bringing a true-to-life sound experience with minimal enhancements. Hear is exactly what the producer intended you're in the cinema. you to hear.

Movie Mode

Enhances the bass and high frequencies to give powerful sound effects, just as though

Gaming Mode

With the added spatial detail, you'll be able to enjoy worlds beyond your imagination.

Speech Mode

Speech mode compensates for common problems, for a better listening experience.

Recording Mode

Recording mode ensures that all your recordings are clear and well balanced

4,660 Awards Won in 2019

ASUS is dedicated to pursuing the highest level of innovation and quality in everything we do. We aspire to become one of the world's most admired leading enterprises in the new digital era. Our ongoing efforts continue to receive worldwide recognition for every aspect of product development, including design, innovation, technology, quality, service, and energy efficiency.

Since 2008, ASUS has earned a total of 39,434 awards from some of the most prestigious international organizations and media groups around the world. Each award is a testament to our relentless quest and commitment to create solutions designed for everyone to joy.

Fortune Magazine named ASUS as one of the World's Most Admired Companies 2018, the definitive ranking of corporate standing.

ASUS products won 15 Good Design awards in 2017. Each Good Design award recognizes excellence in design and engineering.

ASUS products won 7 CES® 2018 Innovation awards in 4 categories, recognizing the highest standards in product design and engineering.

ASUS products won 15 iF Product Design awards in 2018. iF Design awards are recognized worldwide as a seal of quality.

ASUS won 16 Red Dot Awards, recognized professional design, worldwide, in 2018, bringing the company's total since 2001 to almost 100 Red Dot Awards.

The In Search of Incredible

ASUS is passionate about technology and driven by innovation. We dream, we dare, and we strive to create an effortless and joyful digital life for everyone. We're always in search of incredible ideas and experiences and we aspire to deliver the incredible in everything we do.

ASUS is the top-three global consumer notebook vendor and the maker of the world's best-selling and most award-winning motherboards. As a leading enterprise in the new digital era, ASUS creates products that perfectly meet the needs of today's digital home and office: with an extensive portfolio that includes motherboards, graphics cards, optical drives, displays, desktop and all-in-one PCs, notebooks, netbooks, servers, multimedia devices, wireless solutions, networking devices, tablets, and smartphones.

Driven by innovation and committed to quality,

ASUS won 4,511 awards in 2017

ASUS Philippines celebrates an incredible milestone last April 15, 2018 by opening its 100th store in the country which is located in the newly opened Ayala Mall Feliz. The brand aims to make its products more accessible for Filipino end-users and its fans in all islands of the Philippines.

"Now our job is to enrich and then to establish a very effective and very wide coverage channel network and touch point with our Filipino end users so they can really enjoy good products and good solutions anywhere in the country. We believe that we really need to go to our customer and not let the customer find us. The 100th store is our first step to reach out to our partners.

The ASUS Premium Care

9 Step Preventive FREE OF CHARGE Maintenance Program

Valid for all ASUS laptops purchased from ASUS or ROG Concept stores (and other authorized resellers) that are still within the 24-month warranty period. Recommended for availment on the 13th month from the date of purchase, and FREE OF CHARGE on the first session. Succeeding sessions may be charged with a fee. The 9 step Maintenance program includes the following procedures:

- 1. Over-All System Diagnosis
- 2. Thermal Compound Re-pasting
- 3. Fan / Air Vent cleaning
- 4. Memory "golden pins" cleaning
- 5. Keyboard Cleaning
- 6. Cosmetics Part Cleaning
- 7. LCD Cleaning
- 8. Recommendations
- 9. Final Over-All System Check-Up

NOTE: Customer must go through the booking system and acquire a reference number by contacting our Call Center via (02) 7985700 or via chat through My ASUS App and prepare the following requirements:

- · Customer information: Name, Contact number, email address and customer location
- · Unit information: Model, Serial number and Proof of purchase (purchased date)
- Turn Around Time (TAT): 2 working days
- GSM units are excluded
- · OS & Software (3rd party applications etc.) excluded

If a customer's laptop is outside the warranty period or is voided by customer induced damage, the customer may still avail of the program for an SRP of PHP 2,995.

The ASUS Premium Care is available nationwide at select ASUS Authorized Service Partners (ASPs).

ASUS Provides True 2-Year International Warranty

100% Free Service

(100% FREE Service Charge & Spare Parts)

Did you know that only ASUS offers a 2-year Global Warranty that is absolutely FREE? Some vendors claim to give a 3-year warranty, but it is actually only 1 year warranty plus 2 years free of service charge. You still have to pay for the cost of replacing spare parts. That means if the 1 year warranty has expired, you still have to pay the cost of spare parts for repairs. * 1 year warranty for battery

100% Guaranteed Parts & Services
100% Cost FREE! NO REGISTRATION NEEDED
